AY 2026-27

At AHI, we understand that education extends far beyond the classroom walls. Our dynamic After-School Activities (ASAs) are tailor-made to foster holistic development, nurturing your child's interests, talents, and values. It's not just about what they learn – it's about who they become.

Our Partners

We partner with trusted, highly skilled external providers who are experts in their fields. Each partner is carefully selected for their ability to inspire, engage, and support students as they develop essential skills in a joyful, encouraging environment.
